WINE

Five H is pleased to offer our first ever red wine blend:

2006 Five H Heritage. The Wahluke Wine Company (WWC) in Mattawa, Washington produced the merlot and primitivo, and the Five H team made the final Heritage blend of 85 percent merlot, and 15 percent primitivo. The blend was made to show a flavor profile that is different and distinctive. The primitivo adds zip to the juicy merlot flavors, demonstrating full mid-pallet fruit. The merlot shows in the finish more than the primitivo, but the primitivo enhances the overall fruit expression of the finished wine.

Bottled the first week of November 2008,
Five H produced 391 cases for our distribution.
The Five H family is pleased to offer this
quality red wine blend that not only
compliments our white riesling, but also
represent the Hinman families Heritage
in style and uniqueness.
